

LIGHTWEIGHT INFANTRY TRIPOD

The Platt Lightweight Infantry Tripod is an innovative, lightweight and vigorous ground gun mount designed to accept light and heavy machine guns. Two constructed versions: carbon fibre and aluminium.

KEY FEATURES

- 50% weight reduction (from original steel version)
- High Strength (Minimum FoS = 20)
- Low profile tube clamp design
- Integrated G3 receiver
- Modular Design (Efficient ILS, Servicing, Repair & Redeploy)
- Configure feet to match Environment (snow, sand, concrete etc.)
- Corrosion resistant materials used throughout
- Carbon Fibre version: adjustable 3-axis leg motion improving stability and capacity for uneven ground
- Aluminium version: fixed leg height

CARBON FIBRE

ALUMINIUM

Technical Specifications

Weapons fit:	5.56mm, 7.62mm and 12.7mm MGs, 40mm
Weight:	~10kg
Length:	stowed: 1120mm; deployed: 2030mm
Width:	stowed: 210mm; deployed: 1130mm
Height:	stowed: 180mm; deployed: 270mm
Elevation/Depression:	+20°/-30°
Traverse:	30° (left) and 30° (right)

Technical Specifications

Weapons fit:	5.56mm, 7.62mm and 12.7mm MGs, 40mm
Weight:	~8.6kg
Length:	stowed: 1320mm; deployed: 1560mm
Width:	stowed: 240mm; deployed: 1360mm
Height:	stowed: 140mm; deployed: 530mm
Elevation/Depression:	+25°/-30°
Traverse:	30° (left) and 30° (right)

LIGHTWEIGHT INFANTRY TRIPOD

The Platt Lightweight Infantry Tripod is engineered to fit multiple re-attachable feet with high strength and stability, rapid field deployment and reduced injuries risk from lifting and transportation. Capable of handling a variety of terrains while increasing operational capability.

WITH SOFTMOUNT AND T&E

EXPANDED

New and improved Transverse and Elevation mechanism

COLLAPSED

High Tech Manufacturing delivers increased Quality & Repeatability

Efficient collapsible design to minimise vehicle space
